PROFESSIONAL EXPERIENCE

CBC Mortgage Agency

August 2016 – Present

Junior Developer (January 2020 to Present)

Intern Software Developer/IT (April 2018 to January 2020)

- Working to develop and maintain a web-based version of the company's proprietary Loan Management Software and Loan Pricing Engine
- Use Javascript with a heavily modified React library and HTML to collect, manipulate, and display user, loan, origination and other datasets in a large, object-oriented software system that forms a large, multi-layered database
- Collaborate with both technical and non-technical employees to enhance and create updates to our system and create custom reports as needed
- Build and alter pages, documents, and features based on design specs or desired outcomes, maintaining usability and site consistency
- Write code primarily in JavaScript and HTML to add functionality and new features to the system
- Fix issues with the application reported by clients and other team members
- Developed functional programming skills using Javascript and HTML5 using Visual Studio and BB Edit within a 1-year period, primarily self-taught

IT Responsibilities

- Assist team members with technical problems with any hardware or software issues (Mac, Phones, Internet, etc.)
- Manage hardware and software inventory
- Image, set up, and manage new computer systems, software packages, and phone systems
- Network administration

Loan Servicing Manager/IT (April 2018)

- Create department and processes for the servicing and transfer of loans, payments, and customer service
- Manage transfer of all loans sold and purchased
- Create collection processes for payments, and then manage, train, and help a team to collect on those payments
- Work with borrowers, correspondents, investors, and other internal teams on any servicing related item

Loan Document Manager/IT (August 2016 to July 2017)

- Create department and processes for the transfer of loan documents for all of our loan portfolio
- Manage a secure document inventory
- Manage and train the team to ensure all aspects of loan documentation transfer is completed in a timely manner

1800 Contacts

November 2014 – August 2016

Web Chat Customer Service Agent
